

My life is much more peaceful. I work steady night shift as a nurse working for the Vineland Developmental Center and now my telephone is not ringing every half hour with solicitors trying to sell me vinyl siding and news papers. If there is to be any change made it would be to make this law even more strict to cover all of the so called "charity or non-profit organizations. I can't believe all of the calls we receive for "Policemen's" benefit groups. Please, make this law stronger not weaker.
